Satisfyer

An evening with friends...but who is controlling my vibrator?

Remote sex and limitless eroticism brings you REMOTYCA

August 2021: Earlier this year in March, the world's largest brand in the field of sexual wellness, Satisfyer, and Erotica platform BERLINABLE called for the creation and submission of erotic ['remote app short stories'](#).

With Satisfyer's unique remote app function, sexual wellness products can be controlled up close or at a distance, alone or with a partner. In over 17 countries, imaginative people were inspired by the remote function in the Satisfyer Connect app and from this, remote met erotica and over 100 stories were submitted. This resulted in a whole new erotic genre: REMOTYCA.

From **13th August**, over 82 REMOTYCA stories can be found free of charge on BERLINABLE, with the top stories available in the Satisfyer Connect app.

You can find the stories in both English and German in the Satisfyer Spotify playlist, and The Satisfyer Connect App, which is free of charge, is continually expanding with its customers at the forefront, to provide an experience that is both sexy and safe.

Megwyn White, Director of Education at Satisfyer and Certified Clinical Sexologist:

"The latest research suggests that women in particular are more sensitive to this so-called "framing", which is about a context of content around sexual fantasies and creating stimulations rather than just relying on visual ones leaving notes. Audio erotic helps in this process, because it is not so sensually dominant - visual cues like porn can often gain the upper hand. With Audioerotica the mind is freer, filling the gaps with mental pictures and sexy thoughts."

Each story from the 54 authors, 26 of which are female and 2 of which are non-binary, is unique in its own way, varying from vanilla and polyamory to BDSM and exhibitionism.

BERLINABLE founder Giada Armani: *"People want sex that is not just consumption, but exchange and creativity. The success of our REMOTYCA contest is the confirmation. It is particularly significant that most of the stories were submitted by women. We are the force that is revolutionizing another male-dominated industry."*

These three REMOTYCA stories give you a sneak peek into the world of remote erotica, but you can find all stories at <https://berlinable.com/remotyca>.
